Peiec Practitioner Training

Peiec healing takes you on a journey of self-discovery unlike any other with a knowing beyond knowing that all is possible and that healing is there for all of us to have. There is no program like this offered anywhere else. All modules for the course have been given as guided messages, the information is deep and profound, with clear guidance on how to heal others and yourself. It is a life changing program that will bring healing, change and deep personal growth. It will teach you how to heal across the layers of the physical, emotional, intellect and energetic, and connect you to the Core of you, deepening your connection to the energy of All that is.

What skills or knowledge do I need?

You need to be energy aware or sensitive, open to receive guided messages from Source and be willing to do the work to heal yourself before you begin to work with others. The messages we have received are very specific... 'First one must teach of self.... Of the beauty of self...', 'To see self from this place is the beginning of understanding. It is the beginning of healing for self, and it is in the healing of self that one can stand and heal'.

What would I do with what I learn?

Compliment your current modality or set up your own business as a peiec energy healer or join Rochelle & SandraJ as they create a global network of peiec energy healers .

How many modules are there?

That is a great question. As all modules, training, workshops and events are given as guided messages from Source, we can honestly say we do not know. Every day there is more given, more shown, and a deeper understanding of what we have been given so far. This journey is like no other. There is nothing like this being offered. Our commitment to you is that we will walk hand in hand with you and Source, sharing, teaching, guiding and supporting so you can stand in the place that is yours to stand, to teach others, to heal others and to bring all that is being held for you.
